Nikka-Densok HDB-3-2 (H) Ampoule Crack Detection Machine

Nikka-Densok HDB-3-2 (H)
Ampoule Crack Detection Machine

Year 1997

Model HDB-3-2 (H)

Serial Number 311

Capacity Speed 0

Air Requirements 6 BAR

Length 2.2 M

Width 0.8 M

Height 1.7 M

Voltage 400 VOLTS

Frequency 50 HERTZ

Phase 3

Current 1 KVA

Estimated Shipping Weight 500kgs

From the testing documentation, the Nikka-Densok, Ampoule Crack Detection has been tested at 7500 ampoules per hour (125 amp/min). The machine has run a total of 7.3 hours only for commissioning purposes, hence, No software upgrade since purchase (only 7 hours run time on the clock).
